Amaircare Roomaid portable air filtration systems can effectively clean the air in a small room, such as: an office or bedroom and travel with you in your vehicle.

Three-Stage Filtration

Stage 1: Prefilter

Removes dust and odors. Washable.

Stage 2: HEPA filter

99.97% efficient @ 0.3 microns. Removes dust, pollen, bacteria, dander, attached viruses, cigarette smoke, radon daughters and more.

Stage 3: Carbon Blanket V.O.C. filter

Removes gas molecules, including V.O.C.'s (that could be hazardous) that become airborne from carpets, furniture, cleaning products, vehicle exhaust and many other sources.

Easy-to-Change Filters

Prefilter slides on and off like a sock, HEPA filter pops off to access VOC Canister or for replacement.

Metal Construction

Durable metal construction does not emit toxins like some plastics and stands up to wear-and-tear.

Travels Easily

The 12 volt DC motor can plug into your vehicle with the optional auto adaptor cord and secure safely to the seat with the optional seat belt clip .

Ultra Low Energy Use

High-efficiency fan uses less electricity and can run non-stop for years.
