

AMAIRCARE Model Roomaid Mini

12V/DC Portable Air Filtration System

SPECIFICATIONS

CLASSIFICATION

- Portable HEPA (High Efficiency Particulate Arrestance) 100% Sealed Air Cleaning Device

DIMENSIONS: 8.5"D x 6.1875"H

WEIGHT: 4.4 lbs.

AIR FLOW (C.F.M.): 32 (Max)

POWER USAGE: 25 Watts (Max)

HEPA MATERIAL: 13 sq.ft.

MATERIALS: 24 gauge cold rolled steel

FINISH: Baked Thermoset Powder Finish

COLOR(S): Blue, Green, Pink, Orange

SERVICE AREA: Maximum of 250 sq. ft. (based on 8' ceilings) for 1 Air Change per Hour

INTAKE (Upper Section)

Three-stage filter cartridge: Prefilter, HEPA Cartridge and VOC Filter

OUTFLOW (Lower Section)

Encloses motor/fan, exhausts 360°

MOTOR/FAN

- Thermally protected Class "B" insulated backward curved impeller
- Designed for continuous operation
- Run tested for 50,000 hours
- Service: 12 Volt, DC

CONTROL: 2 Speed Rocker Switch

FILTER LIFE

Stage 1 - Carbon Prefilter: 4 months
 Stage 2 - HEPA Filter: 2-5 years
 Stage 3 - V.O.C. Canister: 12 months

ACCESSORIES: Vehicle Adaptor Kit, available in: Blue, Green, Pink, Orange

Amaircare Roomaid Mini portable air filtration systems can effectively clean the air in a small room, such as: a nursery or bedroom and travel with you in your vehicle.

Three-Stage Filtration

Stage 1: Prefilter

Removes dust and odors. Washable.

Stage 2: HEPA filter

99.97% efficient @ 0.3 microns. Removes dust, pollen, bacteria, dander, attached viruses, cigarette smoke, radon daughters and more.

Stage 3: V.O.C. filter

Removes gas molecules, including V.O.C.'s (that could be hazardous) that become airborne from carpets, furniture, cleaning products, vehicle exhaust and many other sources.

Easy-to-Change Filters

Prefilter slides on and off like a sock, HEPA filter pops off to access VOC Canister or for replacement.

Metal Construction

Durable metal construction does not emit toxins like some plastics and stands up to wear-and-tear.

Targets Formaldehyde

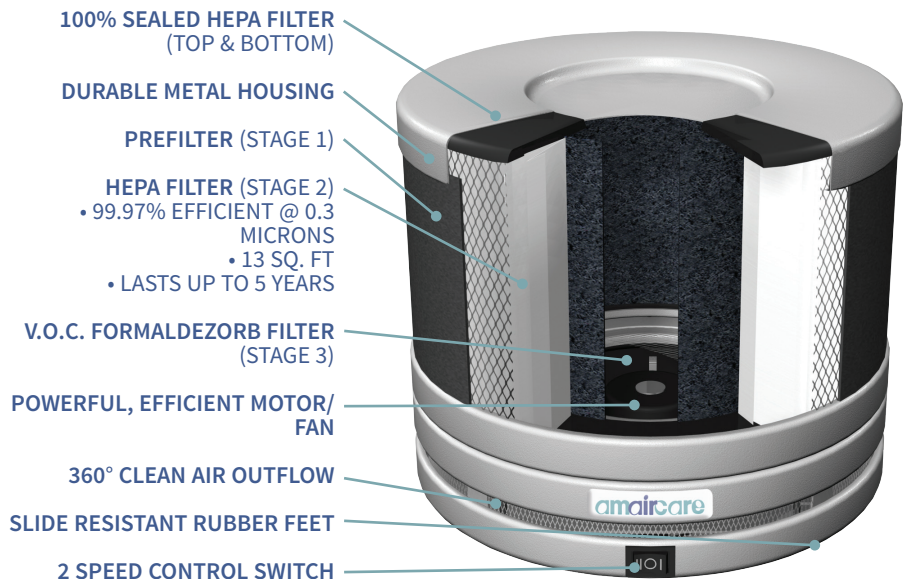

Formaldehyorb VOC Canister is made with 200g of enhanced formaldehyde capturing carbon.

Ultra Low Energy Use

High-efficiency fan uses less electricity and can run non-stop for years.

A Pop of Colour

Available in four vibrant colours.
