Performance notes:

1. All pressures are in inches of water.
2. The NC values, sound pressure level, are base on a room absorption of 10dB re 10-12 watts.
3. Radii of diffusion are given in feet to terminal velocities of 150 fpm (min.), 100 fpm (middle) and 50 fpm (max.).
4. Air flow is in cubic feet per minute, cfm.
