

TIMECLOCKS – AUTOMATED CONTROLS

Customers may want to control their with a timeclock or other automated device. General considerations for this are:

- The device must have dry contacts (no power on contacts).
- Do not use any automated device which may repeatedly turn the fan on and off or switch speeds within a 3 minute period.
- Please consult your installer, retailer, or the manufacturer if you have any questions regarding the suitability of an electric control device.

SAFETY INFORMATION

Not so obvious - Please Read:
