

HERO® 140E

Energy Recovery Ventilator (ERV)

Product #: 599140

* This product earned the ENERGY STAR® by meeting strict efficiency guidelines set by Natural Resources Canada and the US EPA. It meets ENERGY STAR® requirements only when used in Canada.

HERO	140	E
Product Name	Approximate CFM @ 0.4 in. w.g.	Energy Recovery

The HERO 140E is a high-performance energy recovery ventilator (ERV) designed for single-family and multi-family residential applications, including condominiums and apartments. Its counterflow enthalpy core achieves over 79% sensible recovery efficiency (SRE), transferring both heat and moisture. The top-port configuration supports stringent design requirements, while the drainless design simplifies installation and maintenance. An integrated internal damper enables recirculation for efficient defrosting.

Features

- 6 in. (152 mm.) round metal duct connections with rubberized duct seals
- Top-port, drainless design
- Counterflow energy recovery core
- Multiple speed operation
- Internal recirculation defrost
- Removable screw terminal for easy connection with external access
- Includes wall mounting **speed bracket**

Specifications

- Duct size – 6 in. (152 mm.) round
- Voltage/Phase – 120/1
- Power rated – 167 W
- Amp – 1.4 A
- Average airflow – 142 CFM (67 L/s)
@ 0.4 in. w.g. (100 Pa)
- Weight – 58.5 lbs (26.5 kg) including core

Requirements and standards

- UL 1812
- CSA C22.2 no. 113
- CSA F326
- Technical data was obtained from published results of test relating to CSA C439 Standards
- HVI and ENERGY STAR® certified

Fans

Two (2) factory-balanced fans with backward curved blades. Motors come with permanently lubricated, sealed ball-bearings to guarantee long life and maintenance-free operation.

Energy Recovery Core

Counterflow energy recovery core made from water vapor transport durable polymer membrane that is highly permeable to humidity. The ERV core is freeze tolerant and water washable. Core dimensions are 14 3/8 x 14 3/8 in. (366 x 366 mm.) with a 12 in. (305 mm.) depth.

Defrost

The unit incorporates a unique and quiet internal recirculation defrost that does not depressurize the home during the defrost cycle. A preset defrost sequence is activated when the outdoor temperature falls below 23° F (-5° C) and automatically adjusts itself based on operating conditions. The fan speed is also adjusted automatically to provide a smooth and quiet transition between Ventilation & Defrost mode.

Serviceability

Core, filters, fans and electronic panel can be accessed easily from the access panel. Core conveniently slides out with only 14 in. (355 mm.) clearance.

Duct Connections

6 in. (152 mm.) round metal duct connections with rubberized seal.

Case

22 gauge galvanized steel cabinet with a pre-painted steel corrosion resistant door.

Insulation

Cabinet is fully insulated with 3/4 in. (20 mm.) high density expanded polystyrene.

Filters

Two (2), UL900 certified, MERV 3, washable electrostatic panel type air filters 7 7/8 in. (200 mm.) x 9 13/16 in. (250 mm.) x 1/8 in. (3 mm.).

Compatible Controls

Compatible with all Fantech controls.

Balancing and commissioning¹

Balancing must be completed using the Fantech ECO-Touch® Programmable Touch Screen Wall Control.

Installation

This appliance can be wall mounted using the mounting bracket or hung from the ceiling with the hanging chain installation kit.

Limited Warranty

7 years on motor, 5 years on electrical components and core.

Dimensions & Airflow

A		B		C		D	
in	mm	in	mm	in	mm	in	mm
27 7/8	707	13 3/8	341	23	584	24 7/8	626

All units feature three foot plug-in power cord with 3-prong plug.

Ventilation Performance

in. w.g. (Pa)	0.1 (25)	0.2 (50)	0.3 (75)	0.4 (100)	0.5 (125)	0.6 (150)	0.7 (175)	0.8 (200)
	CFM (L/s)	CFM (L/s)	CFM (L/s)	CFM (L/s)	CFM (L/s)	CFM (L/s)	CFM (L/s)	CFM (L/s)
